

MODEL AIR

EN 1986, Vallejo, a pioneer in the hobby world, launched the first range of acrylic colors specially designed and formulated for airbrush use, the result of exhaustive research into quality, adhesion, usability and historical accuracy.

In the Model Air range, you'll find everything from primary colors to well-documented historical references, as well as shades that allow for both artistic interpretations and accurate reproductions across all types of models.

The development process relied heavily on collaboration with experts who contributed historical knowledge and real tone references, with the goal of offering modelers the most precise and faithful color matches to original references. Over two years of testing were carried out to match the most commonly used RLM, RAL, FS, ANA and BS equivalents, quite an ambitious task!

The range available today is a collection of water-based, matt-finish acrylic colors specially formulated for airbrushing. It uses high-quality resins that ensure exceptional adhesion, resistance and durability once the drying process is complete, providing outstanding results.

DE Im Jahr 1986 brachte Vallejo, ein Pionier in der Welt des Modellbaus, die erste Reihe von Acrylfarben auf den Markt, die speziell für den Einsatz mit der Airbrush entwickelt und formuliert wurden, das Ergebnis umfangreicher Studien zu Qualität, Haftung, Benutzerfreundlichkeit und historischer Genauigkeit.

In der Model Air-Reihe finden Sie sowohl Primärfarben als auch dokumentierte historische Farböne, sowie Nuancen, die sowohl künstlerische Interpretationen als auch originalgetreue Darstellungen auf jedem Modell ermöglichen.

Für die Entwicklung war die Zusammenarbeit mit Experten von grundlegender Bedeutung, die ihr historisches Wissen und authentische Farbpräferenzen einbrachten, mit dem Ziel, Modellbauern die genauesten und originalgetreuesten Farböne anzubieten.

Zwei Jahre lang wurden Tests durchgeführt, um die Farben an die am häufigsten verwendeten RLM, RAL, FS, ANA und BS-Standards anzupassen, keine leichte Aufgabe!

Die heute verfügbare Serie ist eine Sammlung wasserbasierter, matt trocknender Acrylfarben, die speziell für die Airbrush formuliert sind. Hochwertige Harze sorgen nach dem Trocknen für außergewöhnliche Haftung, Widerstandsfähigkeit und Härte, für hervorragende Ergebnisse.
